The company is now only in the eighteenth month of its active operation—yet

CAROLINA TIMES.

R. P. WARING, Editor.

CHARLOTTE.

Monday, August 23, 1869.

WILMINGTON AND CHARLOTTE.

Just before and after the meeting of the Stockholders of the W. C. & R. R. R., several articles appeared in this paper that have been entirely misunderstood by our contemporaries of the Wilmington Press. We never intended to write a word that could produce discord between the two cities, but only to intimate that there was a just emulation, each section striving to put forward their own men for the control of the Road; and, of course, as Charlotte won we expressed our gratification. Our people desire and *intend* to have a closer commercial and business connection with the city of the Cape Fear. We will see that the Road is pushed to completion as rapidly as possible, and when that is done most of the freight ocean-bound will be poured into Wilmington, and goods for this section shipped through that point.

Charlotte, full of enterprise, appreciates Wilmington because she has displayed in a very eminent degree the same trait, and as she is a North Carolina city and our nearest outlet to the sea, will receive an immense amount of trade from this entire section.

We admire Wilmington, her whole-souled, liberal, indomitable people, and look forward with pleasure to the day when our city will be bound to her by bands of iron. We now desire to see more of her merchants in our midst, forming business acquaintances and laying deep and broad the foundation of future trade and commercial intercourse.

There is no enmity between the cities, only a just and laudable rivalry as to which can do the most to push forward the good work, and for the development of the resources of the ties of Counties through which this great artery runs. We wish the Road finished, and then when Bro. Bernard and his raiding party comes up, he will find our hearts like our doors, wide open, with a sufficient sprinkling of "Mountain Dew" to allay all feverish excitement.

Here is our ☞

We are glad to see the pluck the Newberne *Times* has exhibited in its recent tilt with the "kill and make alive" organ. Politically, we do not care a fig, because we know the days of Radicalism in the State are numbered, and the *Standard* squirm and twist as it may, but, will never be able to "work" itself out of the slough and filth into which it has plunged during the past three years. Just the fact of being connected with that paper at any time will damn the man to all eternity in this State. So the hard blows struck by the Newberne *Times* is not what has pleased us so much, but its advocacy of that great State measure—consolidation. The State is the most interested party and we cannot see why her interest should be sacrificed at the behest of anyone.—Why has not the State the right to a say in this matter as well as a private stockholder? Her money is in it, and her credit built two thirds of it; and now it must be managed in the interest of a few, and no one has a right to complain for fear of offending the "Fetish Chief" and his immaculate organ. We are glad the Newberne *Times* has had the courage to speak out and the ability to make itself felt. If the editors would write fewer party articles, and more on questions of State interest and enterprise, they would do much to allay political prejudice and to develop the resources of their section and city.

MONEY.

"The outrageous over-estimate of money has entered in the very structure of our language, and, deeper still, into the popular modes of thinking and feeling. When we wish to know how rich a man is, we ask: "What is he worth." The "solid" men of a place are the rich men; nay in the dialect of the market, the rich are the "good," the "responsible," the "safe" men. Caught and decived by such phrases, some people have come to associate pecuniary success with real wisdom, if not with genuine worth.—*Methodist.*

Grant's family are like lumbermen—they get all they ax.

STATE NEWS.

The Episcopal *Methodist* says: "We regret to learn that Rev. W. L. Van Eaton, formerly the principal of Jonesville Institute, died in Abingdon, Va., the 27th of July last. For a number of years Bro. Van Eaton was an active and useful local minister in the M. E. Church.

W. D. Stanley, Postmaster at Smithfield, Johnston county, was, on yesterday, brought before United States Commissioner Porter, charged with opening letters belonging to other parties. He gave bonds in the sum of $500 for his appearance at the next term of the U. S. court.

Standard.

SUMAC.—Mr. Alex. MacRae, of Liverpool, under the head of American Sumac, calls the attention of the people of this country to a very valuable product of our soil, which is almost totally neglected. He says: "Very little progress has been made in this valuable product, and we are without any supplies. The low price quoted in American cities for this most saleable article, evidences that the ablest care is not administered in the gathering and manufacture, which is a pity when a remuneration of $120 a ton, or more, awaits it in this."

Wil. Journal.

THE LUTHERAN CHURCH.—This elegant edifice, erected under the supervision of the skilled architect, Mr. J. F. Post, is now completed; and its exterior presents a well finished appearance, while its inside is so artistically arranged that the eye rests with delight on the many beauties which strike the fancy from every direction. The floor, covered with costly brussels carpets, the pews adorned with rich plush covered cushions, all tend to the whole.

On next Sunday, at 10 o'clock, the church will be dedicated; and the ceremony will be conducted by Rev. G. D. Bernheim, of Mt. Pleasant, Cabarrus County, assisted by other ministers.—*Wil. Star.*

There will be a Sunday School Convention of the Methodist Episcopal Church, commencing Thursday, September 16th, in this city. Addresses will be delivered by some of the ablest men in the ministry.

Standard.

MODERN JEWS ON MOUNT ZION.—The present population of Jerusalem is about eighteen thousand. Of this number there are seven thousand resident Jews. They dwell mostly on the South-eastern slope of Mount Zion, in a quarter by themselves. Their houses are meagre and filthy, built of stone from the rubbish of the city of their fathers, with one, two, or, at most, three rooms. The men are generally pale and of a sad countenance; but many of the women, if they paid more attention to cleanliness, would be considered of exquisite beauty.

These people are not the kind of Jews that you meet with in this country; not the dealers in old clothes and cheap jewelry; not the money changers, who have greed written on their countenances, and in the grasp of their hands; but men who seem to be of devout feelings,—who are in Jerusalem for devotional purposes. With few exceptions, they make no pretensions to labor or business, and are very poor. To a Jerusalem Jew, the very idea of work is repulsive. Fashions do not change with them. The fur-trimmed garment they brought with them on pilgrimage, will do for all seasons and occasions, even for a life-time; and when at last they go to rest with their fathers, this same robe, filthy and time-worn they will take with them.

Every portion of the inhabited world has its representatives among the Jews of Mount Zion, except, perhaps, the poor-house and the prison. They are proverbial for avoiding these places. Many are from Spain,—driven from that country by the intolerance of that infamous queen, who is now herself an exile. A large number are from Poland, and parts of Germany. Their quarters seem to be a Babel in language; yet, in their religion, they know but one tongue,—the Hebrew.

Much is done for the welfare of the Jews, in the sacred city. An expensive Asylum has been built, and supplied with proper officers and furniture, by the munificence of a Mr. Touro, of New Orleans. Though the gift of an American, the credit is usually given to Sir Moses Montifoire of England, who is merely a trustee of the institution. Land has also been purchased in the vicinity, and farming implements, with the hope of inducing the Jews to cultivate the soil; but this proved a failure. They have no idea of possessing the land in this way.

John Billings says: "I don't believe in bad luck being set for a man like a trap; but I have known lots of folks, who, if there was any first-rate bad luck lying around loose, would be sure to get one foot into it anyhow."

NEW COTTON.—The first bale of new cotton, which has reached this point, passed through in transitu yesterday, having reached here by the South Carolina Railroad, and was shipped immediately to New York per steam ship Saragossa.

Letter from Washington.

Correspondence of the Baltimore Gazette.

WASHINGTON, August 19th.

There are two or three points which the Radical organs are taking especial pains, just now, to mystify. One is the proposed action of the Federal Government upon the organization of the Virginia Legislature. Now it is beyond doubt true that General Grant has unmistakably acceeded to the policy of the Boutwell faction, whatever it may be, in this matter, as he has in respect to those of all the reconstructed States. The only question's as to the practicability of applying the test oath so as to secure Radical supremacy. But (as I have heretofore written) it is by no means certain that this object can be accomplished. I need not say that an "opinion" from Attorney General Hoar, to suit any exigency, may be obtained without trouble. The President, too, has also her card to play in his little game of duplicity. He may, if he chooses, throw the responsibility upon the shoulders of General Sherman.

Another matter about which extreme sensitiveness is felt, is the status in those squabbles of the Secretary of War. Judge Dent could make some highly important and new revelations as to the uncertainty of the Secretary's official tenure if he saw proper. And if Boutwell's dogs are not called off, and that quickly, I learn he will make them! I am informed upon good authority that General Rawlins does not agree with the majority of his colleagues upon scarcely a single point of political policy, and that the Secretaries of State and of the Interior have generally sided with him, although, being professional trimmers, little reliance is to be placed on the stability of their support. It is a matter of notoriety here that the balance of the Cabinet have been intriguing for months past to bust General Rawlins. His wealth has no bearing whatever upon the frequent reports of his contemplated "retiracy"—and never had. Whatever relations of friendship may be presumed to exist between him and the President, the latter, it is known, has suffered him to be snubbed without stint by the extreme wing of "the party."

It is rumored here to-day that the President has expressed a desire (which has been telegraphed far and near) that the Radical partisan prints should stop their attacks upon his brother in-law, Judge Dent. I am quite sure Democratic newspapers everywhere will second the motion to smother this "embarrassing and indelicate family quarrel," as it is called by the organ here. It is disgraceful, may become scandalous, and will sound badly abroad, where this great country is yet held in high esteem for its supposed purity and perfectly disinterested patriotism. So long however, as the Judge is mercilessly abused by the President's friends, he must needs be defended by those in whose behalf he is simply telling the truth!

A singular story is afloat in the rounds of political circles here, growing, perhaps, out of the extraordinary and otherwise unaccountable tergiversation of the President in turning suddenly upon a party he had just himself formed. It is to the effect that the Boutwell gang has promised, in consideration of Grant's total abandonment of re-election, to create for him a new military office higher than that of "General," under some new name to be hereafter *invented*, and to include command over both sea and land—*the salvary to equal at least that of President*, to be paid in gold—and *to commence the instant his present office expires*. A proviso, it is said, is to be added, in plain words, giving a clear field to gifts and donations, and gratifications, foreign or domestic. The only difficulty in the way of carrying out the stipulations of this treaty, it would seem, is the possibility that Boutwell may himself be defeated before the people and a Democratic House of Representatives installed before the time allotted for exchanging the ratifications.

Sumner, I hear, yet thinks the Secretary of the Treasury is "*working*" *for him*, and tells him to "stick." What credulity vanity engenders! Old Ben Wade recently wrote to Tullock a most humble and adulatory epistle, winding up with a hope of being "remembered when the ticklish time came." He referred to the Vice Presidency. In telling of this evidence of dotage in the old gentleman, the "economical" Receiver of Internal Revenue, an old and present Engineer of the Treasury Department, plainly said that if the Boutwell machine could be made to run, he should expect to be on the ticket himself for the second place! I know people will laugh at his suggestion! But softly—have we not now a Colfax? I declare this man Tullock has at this moment more real political power than any ten Senators in Congress. I appeal for the truth of what I say *as to the power and impudence of this hump-backed mountebank* to Senator Nye, of Nevada, whose testimony will be taken by Radicals, as mine will be by all Democratic Coversatives. "Boutwell and Tullock"—that's the ticket!

The difference between Gen. Grant and a present made to him a few weeks ago, is, that one is a puppy and the other a puppet.

REMARKABLE PRESENTIMENT.—An English paper publishes the following on the authority of Lady Lyttleton:

Admiral Sir Thomas Williams, a straight-forward and excellent man, founder of the Royal Naval Female School, for the education of naval officers' daughters, was in command of a ship crossing the Atlantic Ocean. His course led him within sight of Ascension Island, at that time uninhabited, and never visited by vessels except for the purpose of collecting turtles which abound on the coast. The island was hardly described on the horizen, and was not to be noticed at all; but as Sir Thomas looked at it, he was seized with an unaccountable desire to sail towards it. He felt how strange such a wish must appear to his crew, and he tried to suppress it, but in vain. It became more and more urgent, until at last he gave orders to head the ship for Ascension. The officer to whom he spoke ventured respectfully to remonstrate, and to urge many reasons, any one of which was sufficient, against changing the course. But these arguments seemed to augment the commander's anxiety, and he insisted on the immediate execution of his orders. He saw in the countenances of his officers an expression of wonder, and even of blame, as strong as they could venture to show; but he was obeyed, and the ship was steered toward the uninteresting little island. All eyes and spy-glasses were now fixed upon it, and soon something was perceived on the shore. "It is white—it is a flag—it must be a signal!" and when they neared the shore, it was ascertained that sixteen men, wrecked on that coast many days before, had set the signal, though almost without hope of relief. The shipwrecked men were taken on board and the voyage completed. Sir Thomas related this anecdote in the simplest and most tranquil manner in 1813 (years after the date of its occurrence,) to the writer of this account.

HORRIBLE STORY OF SUFFERING.—A negro named James Wilson, twenty-five years of age, arrived here on Tuesday evening, 25th inst., in the steamer Rising Star, from Aspinwall, who had existed during the entire passage without eating. He was employed at Aspinwall in receiving the cargo, and after supper on the 17th inst., fell asleep in a secluded part of the lower hold. At one o'clock on the morning of the 18th the vessel sailed. The man on awakening, perceived that she was at [illegible] closed, he was unable to make himself heard from the depth where he was situated. The cargo in his proximity consisted of wool, India rubber, mother-of-pearl shells and hides, and offered no means of sustenance. The hold was by no means crowded with goods, and he enjoyed locomotion, but weakness and the confined air finally overcame him, and he slept profoundly until the hatches were re-opened on Wednesday morning after arrival. The fresh air revived him, and, as the stevedores descended, he was discovered, but was unable to stand. He had been nearly nine days without eating. Tea was administered but he could not retain it. Sherry wine was tried with better success, and he gradually became able to absorb food. He was taken to the colored home, at the spot of East Sixty-fifth street, and will be returned to Aspinwall after recovery by the commissioners of charities and correction, in whose charge he remains.—*N. Y. Times.*

It is to be hoped that Secretary Boutwell may spare time enough from his efforts to choke down the rising opposition to Radicalism to clear his shirts of the grave charges made against him by one of his late subordinates. These charges are, first, having offered $10,000 as a bribe for evidence against President Johnson on the impeachment trial; second, with winking at outrageous frauds on the Treasury, in the shape of counterfeiting and corrupt bargains; and, third, in removing a Treasury officer for too faithfully doing his duty in exposing, to the shame of the administration, that black rogue forced on a Georgia city as United States Postmaster. It will not do for Mr. Boutwell to object to his accuser as one of his subordinates embittered by dismissal; inasmuch as this accuser was until lately chief of the Treasury detectives, and therefore just that very officer whose evidence Mr. Boutwell would have taken as conclusive on a charge of any Treasury fraud against anybody else. Is it any the less forcible against you, Mr. Boutwell?

World.

X writes to the Baltimore *Gazette*: By the way, the Secretary of State, it is said, will shortly exchange places with Mr. Washburne. I do not give this as a mere *on dit*, but as coming from tolerable good authority. The President cannot do without Washburne.

The political contest in Ohio is greatly enlivened by the nomination of Mr. Pendleton as the Democratic candidate for Governor, as it seems to be generally understood that the move was made to bring Pendleton forward in season to take the lead in the next Presidential campaign.

General John A. Dix, late Minister to France, was arrested in New York on Wednesday, at the suit of John Mitchell, "the Irish Patriot," who charges him with illegal imprisonment. Mitchell, it will be remembered, was arrested and imprisoned at Fortress Monroe by General Dix in the summer of 1865, and upon this fact he brings suit for $25,000 damages. General Dix gave security in the amount of $20,000 to answer the charge.

SETTING FENCE POSTS.—The Germantown (Pa.,) *Telegraph* suggests that around each post used in fencing there should be closely packed a small mound of clay, which will keep the post hole from filling with water, and add to the longevity of the post. In setting fence posts in ground liable to heave, a one and a half inch wooden bolt should be placed through the bottom of the post, with its ends projecting. The wind would thus affect it less, and the frost cannot heave it out or loosen it. Loose posts rot much sooner than those which stand firm, and when the posts decay, the fence soon becomes useless.—*The Manufacturer and Builder.*

SPECIAL NOTICES.

Let Us Discuss the Great Question.

What is the most important of all earthly blessings, in the estimation of every intelligent human being?

Clearly, it is HEALTH; for soundness of body and mind is essential to the enjoyment of all the other good gifts of Providence.

How, then, shall those who possesses this inestimable treasure endeavor to preserve it, and how shall those who have lost it seek to receive it?

These questions have been asked in all ages, but never have they been as satisfactorily responded to as at the present day, and the answers which common sense, enlightened by science and experience, gives to them in the Nineteenth Century may be briefly stated thus:

To protect the system against all influences that tend to generate disease, THERE IS NOTHING LIKE INVIGORATION.

To re-establish the health on a firm basis, when it has been lost by imprudence or any other cause, the system must be simultaneously strengthened, regulated and purified.

[illegible] to be attained, through the agency of a preparation which combines the attributes of a tonic, a corrective, a blood depurent, and an aperient.

All these essentials are effectually blended in HOSTETTER'S STOMACH BITTERS. They contain nothing drastic, irritating or inflammatory. The juices and extracts of sanative herbs, roots and barks are their only medicinal ingredients, and these are rendered palatable by combination with the spirituous essence of rye, the purest of all Alcoholic stimulants.

The weak, the feeble, and especially those suffering from biliousness, indigestion and nervousness, absolutely require the renovating aid of this powerful tonic and alterative during the heated term, and cannot prudently postpone its use for a single day. A word to the wise is sufficient.

CHOLERA.

A Cure for this disease may be found in the use of

PERRY DAVIS' PAIN KILLER.

I have used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family for the last twelve months, and have great pleasure in testifying to its very valuable properties. I would not on any account be without it. During the existence of the Cholera last year, I used no medicine of any sort but the Pain Killer, although myself and several members of my family were attacked by it severely and I am happy to say that the Pain Killer was equal to every emergency; it was both a preventive and a certain cure. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, the Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on.

New Advertisements.

The following New Advertisements appear for the first time in this morning's issue.

Fans, Musquetoe Nets, &c.—Brem, Brown & Co.

When Mr. Buchanan was the last President of the United States, Hon. Howell Cobb, his Secretary of the Treasury, invited him to a trip on the noted revenue cutter, Harriet Lane.—He went, but when he found the expense of the voyage was to be charged to the government, gave orders to have the bills sent to him for settlement, which they would have been, had not Mr. Cobb prevented it by paying them out of his own private purse

Tom Hood wrote to his butcher that it was necessary, for the sake of cheap literature and the interest of the reading public, that he should furhish him with meat at a very trifling percentage, above cost price. Mr. Stokes replied: 'Sir, respectin' your note Cheap literature be blowed. Butchers must live as well as other pepel—and it so be you or the redin' public wants to have meat at cost price, you must by your own beastesses and kill yourselves."

The Hungarian journals relate the following extraordinary case of suicide:

"Last week John Stebaleski, a shopkeeper in the Rue Sebaotiani, at Pesth, came down from his bedroom at 5 o'clock in the morning, leaving his wife in bed. He then shaved himself, put on his best clothes, stretched himself on the counter, and having a loaded pistol, discharged the contents into his heart. Death was instantaneous. The horror and astonishment of his wife and the neighbors were indescribable; and the more so that no one knew of any motive for the commission of the desperate act. Whilst all were lost in conjecture, an old friend of the deceased came rushing up, out of breath. He had just received by post a letter from Stebaleski, dated the previous evening, and thus worded: 'My dear friend, I have decided to kill myself to-morrow Life is unsupportable. I adore my wife, but she has grown so stout—she that was of so ravishing a figure when I married her. Adieu, my friend. Tell my wife that I prefer to die rather than be unfaithful to her, or to separate myself from her by means of the law. Farewell, and pity me."

A WONDERFUL ACRE OF COTTON.—The Macon, (Ga.,) *Telegraph* learns from a gentleman from Eufaula, that the stalks, bolls and squares in the brag acre of cotton belonging to Major L. F. Johnston, near Eufaula, had been counted within the last day or two, and that by a close mathematical calculation the acre will yield at least five, and probably, eight 450 pound bales of cotton. Old and experienced planters who were present and examined the cotton stalks, said that the acre would certainly yield five bales, and with favorable weather and close picking seven bales would probably be obtained. This is a most fabulous sounding statement, but we are assured that it is true.

INSANITY IN FRANCE.—M. Lanier, the inspector-general of the lunatic asylums of France, has recently presented to the Academie de Medecine a memoir on the increase of insanity. In 1835 the proportion of lunatics was 4:96 in 1000 inhabitants; on the 1st of January, 1869, it had risen to 24:28 per 1000. Taking the population of France at 30,000,000, we arrive at the conclusion that the number of lunatics nearly equals that of the French army. The enormous apparent increase may be partially attributed to the very imperfect statistics available thirty-four years ago, and the greater facilities then existing for the concealment by families of the presence of this infirmity; but, after making every allowance for this circumstance, M. Lunier, the greatest living authority in France on this subject, is convinced that the number of insane persons has more than doubled in the last thirty-four years.

GOLD FOR COTTON.—The New York *Herald*, of Monday, in its financial article, says:

Now that the Southern States are about to commence a new cotton year, they ought to transact the whole of their cotton business on a gold basis, just as the foreign bankers have always done in their dealings in bills of exchange. In this way the whole Southern States might gradually place themselves on a gold currency basis precisely the same as practised in California, thus ignoring the Legal Tender Act of Congress, just as the loyal State of California always has done, from the beginning until now. The Southern States, by following the example of California in buying and selling only for gold, would then accumulate a gold and silver currency, which would bring about a practical resumption of specie payments and protect them from danger of loss from any fluctuations that may arise in the market value of the greenback currency. Cotton commands gold in every market, at home and abroad, and it is a better basis for the practical immediate resumption of specie payments in the Southern States than the gold and silver mines of California. Every Southerner is interested in this question, and every journal in the South ought to exert its influence to bring about this result without delay. Let the South sell its products for gold, and gold only, and let them keep their surplus in gold as the only currency to use, just as California always has done. This will be some progress on the road to specie payments, and it will tend to keep gold in the country.

In a letter just published, Brownlow writes the following:

The Legislature, though not Republican, is not Democratic; and therefore will not elect Andrew Johnson to the Senate, but will fall back upon some such Conservative, old-line Whig, as Governor Neill S. Brown or Bailie Peyton; and, in my judgment, adopt the Fifteenth Amendment.

KOSKOO!

THE GREAT REPUTATION

Which Koskoo has attained in all parts of the country as

A GREAT AND GOOD MEDICINE

has induced Dr. Lawrence to *enlarge his Laboratory and facilities for manufacturing*, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS

which are constantly being received from Physicians and persons who have BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

AS A BLOOD PURIFIER IT HAS NO EQUALS

BEING POSITIVELY THE

MOST POWERFUL VEGETABLE ALTERATIVE

YET DISCOVERED

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The importance of the blood, as the cause of many diseases, and like many popular opinions this of bad blood is founded in truth. To say nothing of those humours that are hereditary, we can easily see how the blood may become bad from imperfect Digestion, or failure of excretion, and how these may influence the powers of Sensation, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, flabid, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human families are effected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure, diseased, or large elders. Eradicate every impurity from the foundation of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO! KOSKOO!

AS A

LIVER INVIGORATOR,

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE

that EFFICIENTLY *Stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead* of *copious purging*, it gradually changes the discharges *to a perfect Hymatural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF SOME OF THOSE DISEASES RADICATED BY IT.

A sallow or yellow color of the skin, or yellowish brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headach; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a fluctuating or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation or the bowels; piles, flatulence, quickness of the breathing, &c.

KOSKOO!

Is a remedy of unrivalled efficacy in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near a SPECIFIC as *any remedy can be.* It does its work *kindly, silently, and surely.* The RELIEF which it affords is both *certain* and *perceptible.*

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the *importance* of their *healthy action.*

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the blood those effete matters, which if permitted to remain would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the urine is high colored or scalding with weakness in the smallest degree, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of the Life.

KOSKOO! KOSKOO!

Meets with GREAT SUCCESS (as hundreds of certificates will show) in the CURE of

DISEASES OF THE NERVOUS SYSTEM.

Almost nine-tenths of our people suffer from ner vous exhaustion, and are, therefore, liable to its consequences, as of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering today with broken-down nervous systems, and unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical), are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms of which diseases of the nervous system give rise, may be stated as follows; A dull heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Fulness or Bleeding in the head; Confusion of Ideas; Temporary loss of Memory; Dejection of Spirits; Startling Dreams; Loss of Sleep; Bad Dreams; Hesitation in answering questions; Dullness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Imbecility, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured—but recollect that God, in His Providence, has not afflicted his children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
